Iowa City, Iowa 52240

An old saying goes, "What's everybody's business is nobody's business." Since the first white settlers came to Iowa, precious little thought has been devoted to public records administration as a state-wide responsibility. As an illustration of this point, Iowa is presently one of two states in the Union that does not have a professional state archivist although there is much interest in some quarters in creating the position.

In 1977 the Division of the State Historical Society received funding from the National Historical Publications and Records Commission for a two-year study of county records. Precisely what records have been generated and retained by Iowa's 99 counties? To help answer this question, effort has been directed during the project's first year to inventorying the records in a representative sample of six counties - one from each of the state's six congressional districts. The document which follows is one of the initial half dozen inventories compiled by Mark H. Jones, Archivist for the County Records Project.

People will find this inventory useful for a variety of administrative, legal, and research purposes. Information and insights gained in the preparation of the inventory will also help to bring into focus public policy issues that transcend an individual county. For example, Mr. Jones is responsible for reporting on the general status of county records in Iowa. He will draft an Inventory Procedures Manual which will assist in the preparation of surveys beyond the sample group. He will also draft, with the aid of county and state officials, a Records Management Manual including a retention-disposal schedule which will help to bring order to the management of records in Iowa's courthouses. Finally, on the basis of his two years' experience with county records in Iowa, the project archivist will make recommendations for a permanent local records program for the state.

The National Historical Publications and Records Commission, the Iowa Historical Records Advisory Board, the State Historical Board, and several dedicated county officials have all supported this project in various ways. Special thanks are due to Joyce Giaquinta and Loren Horton of the State Historical Society's staff for being generous with their time and experience for the benefit of the County Records Project. Mrs. Giaquinta in fact got the project started by writing the initial grant application.

Introduction

Appanoose County, located in Iowa's coal region, was created in 1843 and organized in 1846. The county seat is Centerville, Iowa. The county courthouse was built in 1903-1904.

Appanoose County forms part of the Iowa coal region which boomed during the late nineteenth and early twentieth centuries. In the 1870's the state legislature enlisted governments of mineral mining counties to conduct periodic inspections. In 1872 a statute authorized Boards of Supervisors annually to appoint a mine inspector who would inspect a mine after receiving written application from the owner, operator, or employees. In 1874 a statute authorized the county inspector to conduct inspections twice a year in those mines and collieries which employed ten or more miners. The act also allowed the inspector to carry out inspections of mines within his jurisdiction at any time and to seek an order for inspection from the Circuit or District courts after being obstructed by the mine owners or operators. The 1874 statute directed the county inspector to conduct inspections after receiving written requests of five or more employees, the owner, or the operator. Statutes passed by the Iowa legislature in 1880 and 1885 abolished the system of county mine inspectors and substituted first the post of state inspector and then a network of district state inspectors.¹

The Project Archivist found no records generated by the county mine inspector while surveying Appanoose County's records. Researchers should consult the minutes of the Board of Supervisors, Circuit and

¹E. H. Downey, History of Labor Legislation in Iowa [Iowa Economic History Series Edited by Benjamin F. Shambaugh] (Iowa City, 1910), 36-38.

District courts records and dockets, and the County Clerk's fee books for 1872-1880 in order to determine the extent of activities of Appanoose County's mine inspectors.

Within the Courthouse county records are stored in the following locations:

Basement:	Two storage rooms with access through first floor drafting room and Assessor and Zoning office
First Floor:	Assessor and Zoning Office; Drafting Room; Engineer's Office; County Health Department; Janitor's Room; Commission of Veterans Affairs Office and Break Room
Second Floor:	County Treasurer's Office; County Auditor's Office; Board of Supervisors Office; Recorder's Office and Vault; Clerk's Office and Vault
Third Floor:	Magistrate's Office

Originals or duplicates of Appanoose County records are also found in the Sheriff's Office, Law Enforcement Center, 1125 W. Van Buren, Centerville; County Welfare Office, 201 1/2 N. 13, Centerville; Chariton Valley Medical Center, 707 S. Main, Centerville; Iowa Land Records Collection, Special Collections, University of Iowa Library, Iowa City.

The Janitor's Room contains over 400 metal filing boxes grouped according to a sequence of arabic numerals under letters from A-J. Clearly this room once served as a records storage room. An index to the filing boxes was found in the Clerk's Office, and random checking of boxes and index entries confirmed the book's authenticity and accuracy. Descriptions of record series contained in these boxes appearing in this inventory are based upon information contained in the index.

The following inventory was taken during the week of April 10-15, 1978. With a few exceptions entries are arranged according to the office of origin. Offices are arranged according to those elected (Auditor, Clerk of Court, Recorder, Sheriff, Treasurer) and those appointed by the Board of Supervisors (Commission of Veterans Affairs; County Assessor; County Conservation Board; County Engineer; County Health Department; County Magistrate; County Medical Examiner; County Board of Welfare). Entries for the Auditor fall under three headings which reflect the office's legal areas of responsibilities: Auditor; Auditor as Commissioner of Elections; Auditor as Clerk, Board of Supervisors.

Specific arrangements of offices or agencies and records are handled in the following manner. Records of the defunct offices of the Coroner and Justice of the Peace are placed within the Clerk of Court's section. Records of the Magistrate fall within a separate section and the Clerk's section. Soldier's Relief records are listed under Commission of Veterans Affairs and within the Auditor's section. Records generated by the Commission of Insanity, Jury Commission, and District Court Reporter appear in the Clerk's section. Proceedings of the County Board of Review and County Conference Board and zoning matters are listed within the Assessor and Zoning section. Poor farm and records of the defunct County Home are listed under County Auditor. The record book of the County Court appears under COUNTY COURT in the Clerk's section and under MINUTES in the County Auditor (as Clerk, Board of Supervisors) section. Relief dispensed through the local state Social Services office is noted under County Welfare. Records of the Compensation Commission appear under EMPLOYEES in the County Auditor (as Clerk, Board of Supervisors) section.

The following rules apply to the entries:

1. The first part of an entry represents the actual, latest title found on bindings, drawers, and boxes within the series. Titles enclosed in brackets were generated by the surveyor. Information within single parentheses () completes the actual title or gives other titles found in the record series. Information within double parentheses (()) includes explanatory material or titles of several instruments found in the record series.

2. Dates generally represent inclusive filing dates or dates of entry. "ca." before a date indicates an approximation. N.D. means No Date.

3. The third piece of information gives the quantity and/or receptical of the record series. Absolute measurements were not obtained. A record series listed as 1/4 cu. ft., for example, indicates an approximate measure of loose documents. One drawer or three boxes may indicate the total quantity of the record series or that the series is found in these three containers.

4. Index: Within Series means that every volume or box within the record series contains an index. Index: Partial Within Series indicates that only a few volumes contain indexing. Indexes separate from record series are noted by title, dates and quantity.

5. Floor and room locations represent areas of storage at the time of the inventory. The following code appears after every notation of indexing:

Assessor and Zoning Office, 1st floor, Courthouse	<u>1</u>
Drafting Room, 1st floor, Courthouse	<u>2</u>
County Engineer's Office, 1st floor, Courthouse	<u>3</u>
County Health Department, 1st floor, Courthouse	<u>4</u>
Janitor's Room, 1st floor, Courthouse	<u>5</u>

County Medical Examiner, Chariton Valley Medical Center, 707 S. Main, Centerville	<u>20</u>

6. LDS-IBMP refers to the Iowa Bicentennial Microfilm Project conducted by the Church of Jesus Christ of Latter Day Saints. The symbol LDS-IBMP appears in entries microfilmed by the Project. The range of years microfilmed is also noted. Reels are stored in Salt Lake City, Utah and the Division of Museum and Archives, East 12th and Grand, Des Moines.

The Appanoose County Board of Supervisors granted permission to conduct this survey. Officials and staff members extended assistance and encouragement and approved the contents of this inventory. Director Peter T. Harstad, Manuscripts Librarian Joyce Giaquinta, and Field Services Specialist Loren Horton of the Division of the State Historical Society gave advice and helpful suggestions. Annette Thompson typed and assisted in proofreading the master copy. The Project Archivist thanks all persons who aided in the compilation and preparation of this inventory.
